

2014 FLIGHT PLANE

Dear Partners, changes to our network are needed, at least once a year, to keep up with the times and also with the Joneses.. lets' see the most important ones:

The Connection between **RUAHA and ARUSHA**: Effective 1st of December, we will re-introduce a DIRECT flight on our most comfortable and pressurized aircraft, the PC12.

The **NORTHBOUND** flight will take off from Ruaha at about 10 AM and will arrive in Arusha on time to connect with Serengeti, Kilimanjaro and Tarangire.

The **SOUTHBOUND** flight will take off from Arusha at about 1PM and will reach Ruaha just after 2PM in time for a glorious afternoon safari in the best of all Tanzania Parks. The flight will be operating normally two days per week: on Mondays and Thursdays.

Connecting **SERENGETI to NAIROBI**: With the cancellation of BA flights we have seen many of our guests choosing to go to Kenya instead... we would like to try winning some back! We plan to fly daily from Nairobi at 0730hrs, on time to collect guests arriving early morning from Europe or already in Nairobi, and fly to Serengeti to arrive on time for game drive and lunch. The return flight will pick guests from any airstrip in Serengeti to arrive Nairobi at 1800hrs, on time to connect to all major international flight to Europe or USA or simply enjoy a night out in the big city. We look forward to your support and feedback.....

DAR ES SALAAM to BAGAMOYO

With more hotels now open in Bagamoyo, it is time we also fly more guests to Tanzania's seventh world heritage site! We plan to fly from Dar es Salaam at 1645hrs via Znz to Bagamoyo to arrive at 1730hrs. The return flight will depart Bagamoyo at 1745hrs, again via Znz to arrive Dar at 1835hrs..

And to remind you of our Seamless Connections:

SERENGETI to ENTEBBE

To maximise the safari experience for your guests, Coastal connects the Great Migration to unexplored Uganda. Coastal flies daily from Serengeti to Entebbe, where it links with Fly Uganda to Murchison Falls, Kibale Forest, Queen Elizabeth National Park and Bwindi Impenetrable Forest.

SERENGETI to MAASAI MARA

The Tarime airstrip acts as a hub for all the flights in the Serengeti Western Corridor and links Kenya's Masai Mara to the Serengeti. This flight is fully operational and is doing exceptionally well...we hope to see more of your guests aboard this flight.

TANZANIA to MOZAMBIQUE

The Pilatus flight from DAR to MOCIMBOA in Mozambique will continue as in the past. Somewhat flexibly, so as to satisfy the specific needs of the Quirimbas properties. Please call for more details.
