

Press Release: 20150112

“The Middle East Connection”

In our endless quest for more comfortable ways to take our guests to their safari destination we came to design a new afternoon flight from Dar es Salaam and Zanzibar to Arusha. This flight will allow passengers arriving to Tanzania with Emirates Airline, Qatar Airways or Oman Air to fly straight to Arusha and get there before sunset, in order to be fresh and ready for their safari in the northern circuit the following day. The flight is also suitable for domestic connections coming from Selous Game Reserve, Ruaha National Park and Mafia island.

The flight will be operational from March 1st 2015 and will operate as follows.

The aircraft will take off at 16:00 from Zanzibar after collecting Oman Air passengers. It will then head to Dar es Salaam where it will have a quick stop to collect Emirates Airline and Qatar Airways guests, as well as passengers coming from Southern Tanzania with our domestic flights.

Oman Air and **Emirates Airline** passengers are recommended to have their visa issued **BEFORE** arriving in Tanzania in order to make the immigration process smooth and avoid delays.

The plane will then take off from Dar es Salaam at 16:30 and land in Arusha at 18:20. No more need to overnight in Dar es Salaam for northbound travelers!
