

Press Release: 20150219

Discontinuation of international flights in Tarime

Following the sudden and unannounced decision of Tanzanian authorities to withdraw their authorization for international flights using the Tarime airstrip as a point of entry/exit of the country, the following changes are introduced in our schedule, **effective immediately**:

NAIROBI ROUTE:

The daily bi-directional connection between Nairobi and the Serengeti will continue operating using **Musoma airport** for customs and immigration. The change will have a minimal impact on the schedule.

ENTEBBE ROUTE:

The daily bi-directional connection between Ugandan parks and the Serengeti will be discontinued, as the changes in the regulations are making it unsustainable. Despite all difficulties we will however honor any confirmed itinerary and accept new bookings on the days we are already planning to fly to Entebbe. The flight will be temporarily operated via Tarime AND Musoma. **Meanwhile we will review our Serengeti routes and look for a way to keep this amazing connection alive.**

SERENGETI - MASAII MARA ROUTE:

The changes have **no impact** on our historical connection between Serengeti and Masai Mara via Tarime and Migori.

Kind Regards

The Coastal Flying Safari Team
