

# Safety Notice

2016-10-24

Dear Friends,

We would like to bring to your attention two important safety issues:

1. Due to the potential dangers presented by the Samsung Galaxy Note 7 smartphone we wish to inform you that **these may not be transported on any Coastal Aviation flight**. This is regardless of whether it may be carried in person, in carry-on luggage or checked baggage. This precaution is as a result of proven safety hazards that will affect passenger health and safety.
2. We are often asked about our ability to fly pregnant women. As many of our fleet are unpressurised aircraft, we feel it is important to reiterate our policy.

Here are the simple guidelines to follow and please note we must be informed so to be prepared:

**0-22 weeks:** pregnant women allowed to fly as long as they experience no complications during this phase of their pregnancy.

**22-32 weeks:** pregnant women allowed with a Doctor's note, and this assumes that they have no complications.

Please **contact us** if you you have any questions or concerns.  
We look forward to keeping you safe on board.

Kind Regards  
The Coastal Flying Safari Team

The logo for Coastal Aviation features the word "Coastal" in a black sans-serif font with a red circle over the 'o', and "Aviation" in a black serif font. A yellow arrow points from the 'o' in "Coastal" towards "Aviation". Below the main text is the tagline "The flying safari company" in a smaller, italicized sans-serif font.
