

Luggage limitations:

2017-02-22

WHAT'S THE COASTAL LUGGAGE ALLOWANCE?

Passengers are permitted a **maximum baggage allowance of 15kgs (33lbs) per person**. Soft bags are strongly recommended, but doesn't need to be a must. This allowance shall include all hand baggage. The carriage of excess baggage is at the sole discretion of the Company after taking into consideration the aircraft being used and the admissible maximum load. In particular we point out that bags are not tagged and checked-in like in large airlines: they remain always under the control of the customer who must not lose sight of them. When excess baggage is carried it will be charged at the prevailing freight rate. Final decision on load allowable or any flight condition is solely up to the pilot in command.

DOES YOUR LUGGAGE FIT?

The cargo pod door measurements are: **36cm x 68cm (14.5" x 27")**

If your bag is larger it will not go through the door of the cargo pod.

Maximum weight: **15kg (33lbs) the pilot has a pocket size scale to check.**

ADDITIONAL LUGGAGE?

More Luggage, No Problem! We have an XL seat class available, if guests need to take more luggage they can book a premium class seat, slightly more expensive, but it allows them to take **30kg (66lbs) of luggage**. These seats are subject to availability.

We may be able to accommodate even more weight if informed well ahead of time, however we will have to charge an additional seat on the plane.

Or we could suggest to book the entire aircraft for sole use on private charter basis.

If you arrive in Tanzania without prior baggage reservation, your extra luggage may be re-routed in a later flight.

EXCESS LUGGAGE NOT NEEDED DURING THE SAFARI?

Winter clothing not needed while in Tanzania?

Storage facilities are available at the Dar es Salaam terminal; you can leave the baggage not needed and the same will be returned to you at the time of leaving the country.

OVERSIZED BAGS CANNOT BE CARRIED ON YOUR LAP.

Your safety is paramount in our operation. Unsecured objects in the cabin are hazardous!
